Chairman's Statement

Dear Shareholders,

On behalf of the board of directors (the "**Board**") of Ahsay Backup Software Development Company Limited (the "**Company**"), I present the annual report of the Company and its subsidiaries (collectively referred to as the "**Group**") for the year ended 31 December 2020.

During the year ended 31 December 2020 and 2019, the Group recorded revenue of approximately HK\$54.8 million and HK\$59.1 million respectively, representing a decrease of approximately 7.3%. The Group recorded a loss attributable to owners of the parent of approximately HK\$3.7 million for the year ended 31 December 2020 as compared to a profit attributable to owners of the parent of approximately HK\$0.1 million for the prior year.

The change from profit to loss was mainly attributable to (i) the decrease in revenue derived from the Group's online backup business as affected by the negative impact from the on-going novel coronavirus ("**COVID-19**") pandemic which has disrupted global economic activities especially in Europe, (ii) the loss derived from the acquired subsidiary in South Korea which is still in its investment stage, and (iii) the increase in staff cost mainly due to the increase in headcount for the expansion of the Philippines office and the decrease in development cost capitalised in order to focus on existing product refinement; which was partially offset by (i) the increase in revenue derived from subscription of the Group's newly developed information platform and (ii) the recognition of government subsidy granted to the Group under The Employment Support Scheme launched by the Government of the Hong Kong Special Administrative Region ("**HKSAR Government**") as compared with the prior year.

Chairman's Statement

2020 was a challenging year for the global economy and our businesses were adversely affected by the COVID-19 pandemic, whereas business opportunities arose alongside with uncertainties. The Group, under such unprecedented challenges, took prompt actions to support the changing needs of customers during the COVID-19 pandemic with social distancing measures imposed.

The management of the Group also made great efforts to safeguard the stability of operations during the COVID-19 pandemic. To protect the health of our employees, we have been strictly following all the pandemic prevention measures advised by the local governments and implementing various precautionary and control measures including work from home arrangements.

Our online backup business has long been our main revenue stream and the pillar business of the Group. We are dedicated to enhancing not only the product features but also the connection with our customers in order to improve customer satisfaction and values. During the year, the Group devoted substantial effort to further raise the level of our backup software development, service standard and competitiveness.

Looking ahead, we will actively seek business opportunities for our businesses and implement certain cost control measures in which its effectiveness will be reviewed from time to time to mitigate the impact of COVID-19 pandemic on our performance. The Group will remain resilient and is cautiously optimistic of our business and expansion opportunities.

On behalf of the Board, I would like to express my sincere gratitude for the hard work contributed by all staff and the Directors, as well as the support to the Company from all our customers, and express my sincere thanks to our shareholders for their strong and enduring support since the listing of the Group. To show our appreciation to all of you for your confidence and support, the Group will be dedicated to striving for better returns for our investors.

Management Discussion and Analysis

BUSINESS REVIEW

Starting from early 2020, the worldwide outbreak of COVID-19 pandemic has led to the temporary suspension and slow down of most of the business activities around the world, especially in Europe. The on-going COVID-19 pandemic has caused uncertainty to our business operation and to the global economic environment during the year and our backup business was also affected. The 2020 annual results reflected the impact of COVID-19 pandemic to our Group. The revenue derived from the Group's online backup software and its related services decreased by approximately HK\$5.7 million or 9.7% from approximately HK\$58.8 million for the year ended 31 December 2019 to approximately HK\$53.1 million for the year ended 31 December 2020.

On the other side, the revenue derived from subscription of the Group's newly developed information platform increased by approximately HK\$1.2 million from approximately HK\$0.1 million for the year ended 31 December 2019 to approximately HK\$1.3 million for the year ended 31 December 2020.

Total revenue of the Group decreased by approximately HK\$4.3 million or 7.3% from approximately HK\$59.1 million for the year ended 31 December 2019 to approximately HK\$54.8 million for the year ended 31 December 2020.

For the year ended 31 December 2020, Ahsay Online Backup Manager ("Ahsay OBM") and Ahsay A-Click Backup ("Ahsay ACB"), core components of Ahsay™ Backup Software, in aggregation accounted for approximately 74.4% of the revenue from software license sales and leasing of the Group. The following graphs show a breakdown of the revenue from software license sales and leasing of the Group for the year ended 31 December 2019 and 2020, respectively:

i) Revenue by software license sales

(HK\$'000)

Management Discussion and Analysis

ii) Revenue by software license leasing

(HK\$'000)

For the year ended 31 December 2020, the number of license sales of Ahsay OBM was 20,046 as compared with 14,072 of the corresponding period in 2019, representing an increase of approximately 42.5%. This is mainly due to the average unit price decreased by approximately HK\$86.6 from approximately HK\$304.2 per unit in 2019 to approximately HK\$217.6 per unit in 2020 as a result of offering more promotional discount to customers during the difficult period of the COVID-19 pandemic.

For the year ended 31 December 2020, the number of license sales of Ahsay ACB was 4,056 as compared with 3,730 of the corresponding period in 2019, representing an increase of approximately 8.7%. Under the intense competition from open-source alternatives for backup solution of standalone PCs or workstations market and on-going COVID-19 pandemic, we adjusted the unit price to maintain our competitiveness during the year. The average unit price decreased from approximately HK\$147.4 per unit in 2019 to approximately HK\$93.9 per unit in 2020.

For the year ended 31 December 2020, the total number of monthly license leasing for Ahsay OBM was 313,494 as compared with 339,753 of the corresponding period in 2019, representing a decrease of approximately 7.7%. The decrease was mainly due to the outbreak of COVID-19 pandemic with enormous repercussions in Europe during the year ended 31 December 2020. The economies in Europe are still under considerable strain. Albeit the average monthly price decreased by approximately HK\$4.8 or 8.5% from approximately HK\$56.6 per month in 2019 to approximately HK\$51.8 per month in 2020, the demand of monthly license leasing for Ahsay OBM dropped.

For the year ended 31 December 2020, the total number of monthly license leasing for Ahsay ACB was 123,537 as compared with 131,410 of the corresponding period in 2019, representing a decrease of approximately 6.0%. The average unit price per month decreased by approximately HK\$1.0 or 10.1% from approximately HK\$9.9 in 2019 to approximately HK\$8.9 in 2020. The decrease in revenue was mainly due to the intense competition of backup solution of standalone PCs or workstations market and on-going COVID-19 pandemic during the year.

Management Discussion and Analysis

Facing the current COVID-19 pandemic, we are working closely together with our customers on product fine-tuning by leveraging video conferencing tools to overcome social distancing obstacles. We believe closer connection with customers can improve customer experience and manifest product and service values to them in particularly during the current difficult time.

The Group has also responded timely to the COVID-19 challenge in order to protect the health of our employees and ensure continuous operation and services. The provision of a safe, healthy and harmonious working environment and well-being of employees are of the utmost priority of the Group.

During the COVID-19 pandemic, we echoed the government's call to adopt special working arrangements to allow our employees to work from home to minimize social gathering and adopted a rotation roster for employees who request to work in office to reduce the chances of infection. Employees were required to wear masks in office area at all times and meetings were conducted via online video meeting software to minimise face to face contact and overseas business trips. As a result of the prompt measures taken, we maintained full operation during the year.

To accommodate additional staff for our future operations, we completed the purchase of another office unit in the Philippines for our use as office space in early 2020 and has continued the renovation process during the year.

PRINCIPAL RISKS AND UNCERTAINTIES

- The Group derived substantially all of its revenue from software license sales and leasing and software upgrades and maintenance services from Ahsay™ Backup Software for the year ended 31 December 2020. Any failure to continuously maintain or enhance the performance of Ahsay™ Backup Software and end-user experience and launch high-quality new software could materially and adversely affect the business and results of operations.
- The performance of the Group relies heavily on its key executives. Business of the Group may be adversely affected if they or any of them cease to serve the Group in the future and the Group was unable to find suitable replacement.
- The Group may be unable to attract or retain skilled staff. Any shortfall in skilled workforce or increase in staff costs may materially and adversely affect its business operations and financial performance, and the Group may not be able to effectively execute the business strategies to drive growth.
- Any failure to protect the intellectual property rights of the Group could reduce the value of its products, services and brands.
- Any failure to recover software development costs could affect the business prospects and profitability of the Group.
- The Group faces intense competition, which could reduce the market share and materially and adversely affect the results of operations and growth prospects of the Group.

Management Discussion and Analysis

OUTLOOK

Core Backup Business

To cater for market needs and keep pace with technological advancement, Version 8 was launched in 2019. Version 8 introduces various new features including Microsoft SharePoint Online Backup etc. and has further enhanced the existing Office 365 backup features. With the enhancement of the functionalities as well as the new index file system, this new adoption of Version 8 has brought better user experience to our customers. We are also in the process of developing our next version of backup software to cope with our customers' future needs.

In view of the uncertainty caused by the current COVID-19 pandemic, the Group will stay alert to its development and will assess its impacts on the financial performance and business operation of the Group continually. The prevention of the spread of COVID-19 remains as one of the top priorities of the Group. We will use utmost effort to safeguard the health and safety of our employees and strive to overcome the impact of the COVID-19 pandemic in order to ensure the Group's smooth operations. Taking into account of our solid foundation in the online backup software business together with a solid global customer base, the Group is optimistic of long-term business growth and development of our backup software business.

Information Platform

The Group has developed information platforms, named KINBOY (堅仔) which is an information analysis tool and KINTIPS (堅料) for information sharing. Those platforms are mainly deployed on mobile-application.

KINBOY is an all-in-one platform for horse racing information to provide users an alternative way to access information electronically. The subscription business model of KINBOY was launched in late 2019. The service is tiered and structured such that free members can access the latest race cards, results and dividends, entries lists, chance table of horse racing and other detailed information such as finesse of horses, odds trend and forecast of first two races for catch-up viewing; while paid members can access detailed information for full day races.

Apart from KINBOY, minimal revenue contributions are derived from information sharing platform via KINTIPS; which is designed for information providers and subscribers to share information via its website and mobile application.

Nowadays, it is common to see people getting updates on the latest information from the internet. Online information can be updated frequently and searched quickly. To browse information, most users are accustomed to use mobile devices. With the Group's experience in the information technology industry, we believe the Group can diversify its business into the mobile-application industry. For the year ended 31 December 2020, the revenue contribution of the information platform to the Group was not material.

FINANCIAL REVIEW

Overview

During the years ended 31 December 2020 and 2019, the Group recorded revenues of approximately HK\$54.8 million and HK\$59.1 million, respectively, representing a decrease of approximately 7.3%. The Group recorded a loss attributable to owners of the parent of approximately HK\$3.7 million for the year ended 31 December 2020 as compared to a profit attributable to owners of the parent of approximately HK\$0.1 million for the prior year.

Revenue

The Group's revenue principally represented income derived from software license sales and leasing, software upgrades and maintenance services and other services. Revenues of approximately HK\$54.8 million and HK\$59.1 million were recognised for the years ended 31 December 2020 and 2019, respectively, representing a decrease of approximately 7.3%.

Management Discussion and Analysis

The decrease in revenue for the year ended 31 December 2020 was mainly due to the decrease in revenue derived from the Group's online backup business as affected by the negative impact from the on-going COVID-19 pandemic which has disrupted global economic activities especially in Europe; and was partially offset by the increase in revenue derived from subscription of the Group's newly developed information platform as compared with the prior year.

Other Income

Other income increased by approximately HK\$2.6 million or 152.9%, to approximately HK\$4.3 million for the year ended 31 December 2020 from approximately HK\$1.7 million for the year ended 31 December 2019. The increase in other income for the year ended 31 December 2020 was mainly due to the recognition of a one-off government subsidy granted to the Group under the Employment Support Scheme launched by the HKSAR Government.

Staff Costs and Related Expenses

Staff costs and related expenses primarily comprised salaries, performance bonuses, directors' fee, Mandatory Provident Fund contributions, other staff welfare and other related expenses. Staff costs and related expenses which increased by approximately HK\$3.5 million or 8.1%, to approximately HK\$46.5 million for the year ended 31 December 2020 from approximately HK\$43.0 million for the year ended 31 December 2019.

The increase in staff costs and related expenses for the year ended 31 December 2020 was mainly due to (i) the decrease in development costs capitalised in order to focus on existing product refinement, and (ii) the increase in headcount for the expansion of the Philippines office as compared with the prior year.

Other Expenses

Other expenses primarily comprised depreciation, amortisation, advertising and marketing expenses, merchant credit card charges, legal and professional fees and other regular office expenses such as utilities. Other expenses slightly increased by approximately HK\$0.1 million, or 0.6%, to approximately HK\$16.8 million for the year ended 31 December 2020 from approximately HK\$16.7 million for the year ended 31 December 2019.

Income Tax Credit (Expenses)

The Group recorded income tax credit of approximately HK\$0.2 million for the year ended 31 December 2020. The decrease in income tax expenses was mainly due to the decrease in assessable profits generated during the year ended 31 December 2020 as compared with the prior year.

Loss for the Year

The Group recorded a loss of approximately HK\$4.5 million for the year ended 31 December 2020 as compared to a loss of approximately HK\$0.5 million for the prior year. Among the loss for the year, approximately HK\$6.3 million and HK\$2.7 million segment losses were incurred from the Group's online backup software and related services segment and information platform segment, respectively; and was offset by the other income of approximately HK\$4.3 million.

Management Discussion and Analysis

Financial Position, Liquidity and Financial Resources

The Group adopts a prudent cash and financial management policy. In order to achieve better cost control and minimise the costs of funds, the Group's treasury activities are centralised and substantial cash is generally deposited with licensed banks in Hong Kong and denominated mainly in Hong Kong dollars ("HK\$"). As the Group's cash and bank balances were substantially denominated in Hong Kong dollars, risk in exchange rate fluctuation would not be material.

The Group is in a sound financial position. As at 31 December 2020, the Group's current assets were approximately HK\$79.9 million (31 December 2019: approximately HK\$91.2 million). The Group remained at a net cash position as at 31 December 2020 and 2019, respectively. Based on the amount of liquid assets on hand, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirements.

Charges on Assets of the Group

As at 31 December 2020, there was no charge on assets of the Group (31 December 2019: nil).

Capital Structure

The capital structure of the Company comprised of ordinary shares only. As at 31 December 2020, the Company's issued share capital was HK\$20.0 million with 2,000,000,000 issued shares of HK\$0.01 each.

Gearing Ratio

As at 31 December 2020, the Group's gearing ratio, calculated as interest-bearing liabilities divided by the total equity, was approximately 2.5% (31 December 2019: 1.7%).

Financial Management Policies

The Group in its ordinary course of business is exposed to market risks such as foreign currency risk and interest rate risk. The Group's risk management strategy aims to minimise the adverse effects of these risks on its financial performance.

The Group's cash is primarily deposited at licensed banks in Hong Kong and denominated mainly in HK\$. As at 31 December 2020, no related hedges were made by the Group (31 December 2019: nil).

As most of the Group's trading transactions, monetary assets and liabilities are denominated in HK\$, the impact of foreign exchange exposure to the Group during the year ended 31 December 2020 was minimal and there was no significant adverse effect on normal operations.

The carrying amounts of the Group's monetary assets denominated in currencies other than the Group's operating units' functional currencies at the end of the reporting period are mainly denominated in United States Dollar ("US\$"). As HK\$ is pegged to the US\$ within a narrow band, the Group does not expect any significant movements in the US\$/HK\$ exchange rate. Accordingly, management considers that the Group's foreign currency risk exposure for US\$ is not significant.

With the current interest rates remaining at relatively low levels, the Group has not entered into any interest rate hedging contracts or any other interest rate related derivative financial instruments. However, the Group continues to monitor its interest rate exposure closely.

Management Discussion and Analysis

Capital Commitments

The Group had no significant capital commitments as at 31 December 2020.

As of 31 December 2019, the total capital commitment by the Group amounted to 40.8 million Philippine Peso (“PHP”) (equivalent to approximately HK\$6.3 million) which was made up of contractual commitment in respect of the acquisition of office unit and four parking slots in Manila, Philippines for its own use as office. The total consideration was approximately PHP60.0 million (equivalent to approximately HK\$7.8 million), inclusive of 12% value added tax. An initial deposit of approximately PHP10.2 million (equivalent to approximately HK\$1.5 million) was paid on 9 October 2019. The transaction was completed on 15 January 2020.

Contingent Liabilities

The Group had no significant contingent liabilities as at 31 December 2020 (31 December 2019: nil).

MATERIAL ACQUISITIONS AND DISPOSALS

Save as disclosed below, there was no other material acquisition or disposal of subsidiaries, associates or joint ventures during the year ended 31 December 2020 and 2019, respectively.

Acquisition of a subsidiary and non-controlling interests

To further expand and develop its core backup business in South Korea, on 29 April 2019, Ahsay HK, an indirect wholly-owned subsidiary of the Company and, existing shareholders of Ahsay Korea, independent third parties, entered into a shareholder agreement pursuant to which Ahsay HK agreed to make a capital contribution of KRW100 million (equivalent to approximately HK\$0.7 million) for 20,000 ordinary shares of Ahsay Korea (“Stage 1”) representing 28.57% of the shareholding of Ahsay Korea and further make a capital contribution of KRW150 million (equivalent to approximately HK\$1.0 million) for 30,000 ordinary shares of Ahsay Korea (“Stage 2”) representing 21.43% of the shareholding of Ahsay Korea conditionally.

As at the date of acquisition on 29 April 2019, the Group acquired 28.57% equity interest in Ahsay Korea by way of capital contribution. With the completion of Stage 2, the equity interest of the Group in Ahsay Korea increased from 28.57% to 50.00%. For further information, please refer to the announcement of the Company dated 29 April 2019.

Thereafter, during the year ended 31 December 2020, the Group has further invested in additional ordinary shares of Ahsay Korea at an aggregate cash consideration amounting KRW300 million (equivalent to approximately HK\$2.0 million). As at 31 December 2020 and 2019, the Group held 52.17% of the shares of Ahsay Korea.

Management Discussion and Analysis

EMPLOYEES AND REMUNERATION POLICY

As at 31 December 2020, the Group had a workforce of 125 employees (2019: 105). The increase in number of employees was mainly due to human resources allocation to the representative office in the Philippines. Total directors and staff costs for the year ended 31 December 2020 was approximately HK\$46.3 million before the development cost capitalised, representing an increase of approximately HK\$2.2 million as compared to that of the corresponding period in 2019. Details of staff costs and related expenses and emoluments of the Directors and five highest paid individuals are set out in notes 7 and 11 to the consolidated financial statements respectively.

Remuneration is determined with reference to the duties, responsibilities, experience, performance and competence of individual employee and Director. In addition to salaries and discretionary bonuses relating to the performance of the Group, employee benefit included the mandatory provident fund prescribed by the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong). The Group has not participated in any other pension schemes for the employees in Hong Kong. Most of the employees engaged outside Hong Kong are covered by appropriate local arrangements. The emoluments of the Directors are reviewed annually by the remuneration committee of the Board (“Remuneration Committee”).

As incentives and rewards for their contributions to the Group, the employees of the Group and all the Directors (including the independent non-executive Directors (“INEDs”)) may also be granted share options by the Company from time to time pursuant to the share option scheme adopted on 4 September 2015, details of which are set out in section headed “Report of the Directors” in this report.

The Group provides various training to its employees to enhance their technical skills and knowledge relevant to the employees’ responsibilities.

During the year, the Group did not experience any strikes, work stoppages or significant labour disputes which would have affected its operations in the past and it did not experience any significant difficulties in recruiting and retaining qualified staff.

RESULTS

The results of the Group for the year ended 31 December 2020 and the state of affairs of the Group at that date are set out in the financial statements on pages 55 to 115.

DIVIDEND POLICY

The Company has adopted a general dividend policy that aims to provide shareholders of the Company out of the Group's profit attributable to shareholders in any financial year. In proposing any dividend payout, the Board shall take into account, inter alia, the following factors:

- the Group's actual and expected financial performance;
- shareholders' interests;
- retained earnings and distributable reserves of the Company and each of the other members of the Group;
- the level of the Group's debts to equity ratio, return on equity and financial covenants to which the Group is subject;
- possible effects on the Group's creditworthiness;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the Group's expected working capital requirements and future expansion plans;
- liquidity position and future commitments at the time of declaration of dividend;
- taxation considerations;
- statutory and regulatory restrictions;
- general business conditions and strategies;
- general economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
- other factors that the Board deems appropriate.

The payment of dividend is also subject to any restrictions under the applicable laws, the Company's Memorandum and Articles of Association.

The Board does not recommend the payment of any dividend for the year ended 31 December 2020.

Report of the Directors

Report of the Directors

SHARE OPTION SCHEME

The Company adopted a share option scheme (the "Share Option Scheme") on 4 September 2015 to provide incentives or rewards to eligible persons for their contribution to, and continuing efforts to promote the interest of, the Group. For the purpose of this section, refer to (a) ("Invested Entity") shall mean any entity in which our Group holds any equity interest (irrespective of the percentage of such equity interest); (b) ("Employee") shall mean any employee (whether full time or part time employee, including any executive Director but not any non-executive Director) of the Group and any Invested Entity; (c) ("Participant") shall include: (i) any Employee; (ii) any non-executive Director (including independent non-executive Directors) of our Group or any Invested Entity; (iii) any supplier of goods or services to any member of our Group or any Invested Entity; (iv) any customer, business or joint venture partner, franchisee, contractor, agent or representative of our Group or any Invested Entity; (v) any consultant, adviser, manager, officer or entity that provides design, research, development or other support or any advisory, consultancy, professional or other services to our Group or any Invested Entity; and (vi) any direct or indirect shareholder of our Group. The following is a summary of the principal terms of the Share Option Scheme:

(a) Purpose of the Share Option Scheme

The purpose of the Share Option scheme is to provide incentives or rewards to the Participants for their contribution to the growth of the Group and any Invested Entity and/or to enable our Group to recruit and retain high-calibre employees and attract human resources that are valuable to our Group and any Invested Entity.

(b) Who may join

The Board shall be entitled but shall not be bound at any time and from time to time within the period of ten years from the date on which the Share Option Scheme becomes effective to make offers to any Participant, as the Board may in its absolute discretion select, and subject to such conditions as the Board may think fit, to take up options to subscribe for Shares, being a board lot for dealing in Shares on the Stock Exchange or an integral multiple thereof, as the Board may determine at a price calculated in accordance with sub-paragraph (c) below. For the purpose of the Share Option Scheme, options may be granted to any company wholly-owned by a Participant.

(c) Subscription price for shares and consideration for the option

The subscription price for shares in respect of any options granted under the Share Option Scheme shall be a price determined by the Board, in its absolute discretion, but in any case shall not be less than the highest of:

- (i) the closing price per share as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a trading day;
- (ii) the average closing price per share as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of grant; and
- (iii) the nominal value of a share on such date of grant.

Report of the Directors

(d) Maximum number of shares

The maximum number of shares in respect of which options may be granted under the Share Option Scheme shall not in aggregate exceed 10% of all the Shares in issue as at the date of the Listing (i.e. not exceeding 200,000,000 shares representing 10% of the issued capital of the Company as at the date of this report).

(e) Maximum entitlement of each Participant

No Participant shall be granted an option if the total number of shares issued and to be issued upon exercise of the options granted and to be granted (including both exercised and outstanding options) in any 12-month period up to and including the date of such further grant would exceed 1% of the shares in issue.

(f) Time of acceptance and exercise of option

An offer of the grant of option may be accepted by a Participant within 21 business days from the date of the offer of grant of options.

(g) Rights are personal to grantee

An option shall be personal to the grantee and shall not be transferable or assignable and no grantee shall in any way sell, transfer, charge, mortgage, encumber, or create any interest (legal or equitable) in favour of any third party over or in relation to any option.

(h) Duration of the Share Option Scheme

Unless terminated by the Board or the Company by resolution in general meeting, the Share Option Scheme shall be valid and effective for a period of ten years commencing from the date on which the Share Option Scheme becomes effective, after which period no further options shall be granted but the provisions of the Share Option Scheme shall remain in full force and effect in to the extent necessary to give effect to the exercise of the options granted prior thereto.

Since the adoption of the Share Option Scheme up to the date of this report, no share options have been granted pursuant to the Share Option Scheme and there was no share option outstanding as at 31 December 2020.

RELATED PARTY TRANSACTIONS

Significant related party transactions entered into by the Group during the year ended 31 December 2020 are disclosed in note 34 to the financial statements. Transaction constituted continuing connected transaction under the GEM Listing Rules is identified below:

Report of the Directors

Tenancy Agreement in respect of Office Premises (the “Office Premises Tenancy Agreement”)

With the expiry of the term of the Office Premises Tenancy Agreement in respect of the properties located at 28/F and car parking space number P5 on 2/F of Ford Glory Plaza, 37 Wing Hong Street, Lai Chi Kok, Kowloon, Hong Kong (the “Office Premises”) on 31 December 2018 and that the Office Premises have been used as head office, a renewal Tenancy agreement between Ahsay Systems Corporation Limited (“Ahsay HK”), as tenant, and Assets Sino Investments (HK) Limited (“Assets Sino HK”), as landlord, was entered into on 9 November 2018 (the “Renewal Tenancy Agreement”) for a term of 3 years commencing from 1 January 2019 to 31 December 2021 at an annual rent of HK\$3,120,000, exclusive of government rent, rates, management fee, utilities and other service charges.

Assets Sino HK is a company under common control of the Controlling Shareholders and is therefore a connected person of the Company under the GEM Listing Rules. The transaction under the Office Premises Tenancy Agreement and Renewal Tenancy Agreement constituted the continuing connected transactions for the Company under Chapter 20 of the GEM Listing Rules.

An independent valuer has conducted valuations of the Office Premises. The result of such valuations confirmed that the rental charge of the Renewal Tenancy Agreement is in line with the market rent and reflect the prevailing market rate as at 1 October 2018, the valuation date.

The annual cap for rental in respect of the Renewal Tenancy Agreement payable by the Group for each year ending 31 December 2019, 2020 and 2021 is HK\$3,120,000, HK\$3,120,000 and HK\$3,120,000, respectively.

The INEDs of the Company have reviewed the continuing connected transactions and confirmed that the Renewal Tenancy Agreement has been entered into (a) in the ordinary and usual course of business of the Group; (b) on normal commercial terms or better; and (c) in accordance with the relevant agreement governing them on terms that are fair and reasonable and in the interests of the Shareholders as a whole.

Pursuant to Rule 20.54 of the Listing Rules, the Company has engaged the auditor of the Company to conduct certain procedures in respect of the continuing connected transactions of the Group in accordance with the Hong Kong Standard on Assurance Engagement 3000 (Revised) “Assurance Engagement Other Than Audits or Reviews of Historical Financial Information” and with reference to Practice Note 740 “Auditor’s Letter on Continuing Connected Transactions under the Hong Kong Listing Rules” issued by the Hong Kong Institute of Certified Public Accountants.

The auditor has confirmed to the Board in writing that for the year ended 31 December 2020, the continuing connected transactions, which were entered into,:

1. have received the approval of the Board;
2. have been in accordance with the relevant agreement governing such transactions; and
3. have not exceeded the annual cap amount as set by the Company for the financial year ended 31 December 2020.

Report of the Directors

The Company confirms that the continuing connected transactions as disclosed above fall under the definition of continuing connected transactions in Chapter 20 of the GEM Listing Rules and that the Company has complied with the relevant disclosure requirements.

The Group recognises the importance of compliance with regulatory requirements and the risk of non-compliance with relevant requirements could lead to adverse impact on business operation and financial position of the Group. The Board as a whole is responsible to ensure the Group is in compliance with relevant laws and regulations that have a significant impact on the Company. To the best knowledge of the Board, the Group was unaware of any material non-compliance with relevant laws and regulations during the year ended 31 December 2020.

KEY RELATIONSHIPS WITH EMPLOYEES

Human resources are the most valuable asset of the Group. The Group rewards and recognises employees with competitive remuneration package and implements a key performance index scheme with appropriate incentives, and promotes career development and progression by providing opportunities for career advancement.

The Group considers its employees the key to sustainable business growth. Workplace safety is priority of the Group, and with due awareness of all employees throughout the year, the Group was able to maintain safety workplaces for its employees.

Report of the Directors

KEY RELATIONSHIPS WITH CUSTOMERS

The Group has a globally-diversified customer base worldwide. In order to maintain good and stable relationships with customers, various measures have been adopted to strengthen the communications between the customers and the Group in the provision of customer service towards penetration and expansion. In addition, the Group will continue expanding our sales and marketing team to proactively manage customer relations, expand our customer base and enhance customer loyalty.

KEY RELATIONSHIPS WITH SUPPLIERS

The Group does not have any supplier of goods or services which was specific to the Group's business and which was required by the Group on a regular basis to enable the Group to continue to supply or service our customers.

AUDITORS

The financial statements for the year ended 31 December 2020 were audited by Ernst & Young who will retire as the auditors of the Company and, being eligible, offer themselves for re-appointment.

On 12 December 2019, Deloitte Touche Tohmatsu resigned as auditors of the Company and Ernst & Young were appointed by the Directors to fill the casual vacancy so arising. Save for the aforementioned, there has been no other change of auditors in the past three years.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Group's corporate governance framework bases on two main beliefs:

- the Group is well-committed to maintain good corporate governance practices and procedures; and
- the Group recognises the need to adopt practices that improve itself continuously for a quality management.

Accordingly, the Group is committed to maintaining high standards of corporate governance with a view to assure the proper conduct of management of the Group as well as protecting the interests of all Shareholders. The corporate governance principles adopted by the Group emphasize a quality Board for leadership, effective internal controls, transparency and accountability to all Shareholders.

The Group has applied the principles and adopted all code provisions, where applicable, of the Corporate Governance Code ("CG Code") as set out in Appendix 15 to GEM Listing Rules as its own code of corporate governance. The Directors consider that the Group has complied with all the code provisions as set out in the CG Code throughout the year ended 31 December 2020.

The Group has further adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings as set out in Rules 5.48 to 5.67 of the GEM Listing Rules. In response to specific enquiry made by the Company, each of the Directors gave confirmation that he/she has complied with the required standard of dealings and the code of conduct regarding securities transactions by the Directors throughout the year ended 31 December 2020.

The Group believes through the operation of an effective Board, sound internal controls, and accountability to Shareholders, the Group is able to maximise the value of all Shareholders. The following summarises the corporate governance practices adopted and observed by the Group during the year ended 31 December 2020.

BOARD OF DIRECTORS

Board Composition

As at 31 December 2020 and as at the date on which this annual report is approved, the Board comprises four executive Directors and three Independent Non-Executive Directors as named below. An updated list of the Directors identifying their roles and functions is posted on GEM's website and the Company's website from time to time.

Executive Directors

Mr. Chong King Fan (*Chairman*)
Mr. Schubert Chong (*Chief Executive Officer*)
Mr. Scherring Chong (*Vice Chairman*)
Ms. Chong Siu Fan

Independent Non-Executive Directors

Mr. Wong Cho Kei Bonnie
Ms. Wong Pui Man
Mr. Wong Yau Sing

Corporate Governance Report

The names, biographical details of the Directors and the relationships among them are set out in the “Directors and Senior Management” section of this annual report.

Each Director has sufficient experience to hold the position so as to carry out his/her duties effectively and efficiently. The Board provides the Group with diversified industry expertise, advises management on strategic development and maintains high standard of compliance with financial and other mandatory reporting requirements as well as provides adequate checks and balances to safeguard the interests of Shareholders and the Company as a whole.

Term of Appointment and Re-election

Each of the executive Directors has entered into a Director’s service contract with the Company and each of the non-executive Directors including the INEDs has entered into a letter of appointment with specific terms with the Company. All Directors are subject to retirement by rotation and re-election at the general meeting in accordance with the Articles of Association. Details of the terms of appointment of the Directors are disclosed in the section “Directors’ Service Contracts and Letter of Appointment” of the Report of the Directors in this annual report.

Pursuant to the Articles of Association, at each annual general meeting, one-third of the Directors for the time being (or, if their number is not three (3) or a multiple of three (3), then the number nearest to but not less than one-third) shall retire from office by rotation, provided that every Director shall be subject to retirement by rotation at least once every three years. Any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of members after his appointment and be subject to re-election at such meeting and any Director appointed as an addition to the existing board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election. Any Director appointed to fill a casual vacancy or as an additional Director shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at such meeting.

Every newly appointed Director is provided with a package of materials detailing the duties and responsibilities of Directors under the GEM Listing Rules, the Articles of Association, related ordinances and relevant regulatory requirements of Hong Kong. Every Director is aware that, before accepting appointment as a Director, he/she must be able to give sufficient time and attention to the affairs of the Company.

Board Meetings

The Group adopted the practice of holding Board meetings that included both executive Directors and independent non-executive Directors in person or through electronic means of communication regularly at least four times every year. During regular meetings of the Board, the Directors discussed and formulated the overall strategies of the Group, monitored financial performances and reviewed the financial results, as well as discussed and decided on other significant matters. The Board will also meet on other occasions when a board-level decision on a particular matter is required.

Generally, at least 14-days’ notice for the Company’s regular Board meeting, and reasonable time for all other meetings, would be given prior to such meetings. The Directors will receive the agenda and accompanying documents tabled in the meeting at least three days before regular Board meetings and will be given an opportunity to include matters in the agenda for discussion.

Corporate Governance Report

In order to ensure that Board procedures, applicable rules and code provisions are followed, all Directors are able to access the Company's company secretary for advice. Upon reasonable request, the Directors will be able to seek independent professional advice in appropriate circumstances at the Company's expense.

The company secretary of the Company has assisted the chairman of the Board in preparing the agenda for each meeting. Minutes of such meetings are kept by the Company's company secretary or other duly authorised person during the meeting which included all decisions made during the meetings together with concerns raised and dissenting views expressed (if any). All minutes are open for inspection by any Director on reasonable notice. Such minutes are recorded in sufficient detail of the matters considered and decisions reached. Draft and final versions of minutes are sent to Directors for comment and records, respectively.

During the year ended 31 December 2020, four Board meetings (excluding committee meetings) were held and attendance of each Director is set out below.

Name of Director	Attendance
<i>Executive Directors</i>	
Mr. Chong King Fan	4/4
Mr. Schubert Chong	4/4
Mr. Scherring Chong	4/4
Ms. Chong Siu Fan	4/4
<i>Independent Non-Executive Directors</i>	
Mr. Wong Cho Kei Bonnie	4/4
Ms. Wong Pui Man	4/4
Mr. Wong Yau Sing	4/4

Apart from the Board meetings, Board committees met on other occasions during which matters relating to their respective terms of reference was discussed. The Board committee members would receive notice, agenda and documents to be tabled for consideration in advance of each meeting in accordance with the CG Code and respective terms of reference.

Directors are provided with monthly updates on internal unaudited financial information so as to give them a balanced and understandable assessment of the Group's performance, position and prospects. All Directors gave sufficient time and attention to the affairs of the Group to ensure a competent Board operation during the year ended 31 December 2020.

Corporate Governance Report

Directors' Continuous Training and Professional Development

In compliance with the code provision A.6.5 of the Code, all Directors shall participate in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. During the year ended 31 December 2020, the Directors were provided with timely updates on the Company's performance, financial position and prospects to enable the Board as a whole and each Director to discharge their duties.

The Group continuously updates the Directors on the latest developments regarding the GEM Listing Rules and other applicable regulatory requirements, so as to ensure that he/she is aware of his/her responsibilities and obligations as well as to maintain good corporate governance practices.

Delegation by the Board

The Company has set out the respective functions and responsibilities which can be reserved to the Board and delegated to management or Board committees. The Board delegates day-to-day operations of the Group to executive Directors and senior management while reserving certain key matters, mainly relating to the approval and monitoring of the Group's overall strategies, policies and business plans; and overseeing and evaluating the performance of the Group. It is also responsible for promoting the success of the Group and its businesses by directing and supervising the Group's affairs. Board committees for specific functions are also set up to ensure efficient Board operations.

Decisions of the Board are communicated to the management through executive Directors who have attended at Board meetings.

Directors' Work Commitments Outside the Group

Directors are required to disclose in a timely manner to the Company's company secretary for any change in the number and nature of offices held in public companies or organisations and other significant commitments, and the identity of such public companies or organisations. Such information is disclosed in the "Directors and Senior Management" section of this annual report.

Directors' Liability Insurance

The Company has arranged appropriate liability insurance to cover the Directors' risk exposure arising out of corporate activities. The insurance coverage is reviewed annually.

BOARD COMMITTEES

The Board has established four committees, namely the Remuneration Committee, nomination committee ("Nomination Committee"), audit committee ("Audit Committee") and risk management committee ("Risk Management Committee") for overseeing various aspects of the Group's affairs. All Board committees of the Company are established with defined written terms of reference. The terms of reference of such Board committees are available on GEM's website and the Company's website. The Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances, at the Company's expense.

All members of the Remuneration Committee, the Nomination Committee and the Audit Committee are INEDs and the majority of the members of the Risk Management Committee are INEDs. The list of the chairman and members of each Board committee is set out below.

Corporate Governance Report

Remuneration Committee

The Remuneration Committee comprises three INEDs, namely Ms. Wong Pui Man (Chairman of the Remuneration Committee), Mr. Wong Cho Kei Bonnie and Mr. Wong Yau Sing.

The Remuneration Committee considers and recommends to our Board the remuneration and other benefits paid by us to our Directors and senior management. The remuneration of all our Directors and senior management is subject to regular monitoring by our Remuneration Committee to ensure that levels of their remuneration and compensation are appropriate.

During the year ended 31 December 2020, one meeting of the Remuneration Committee was held to review the structure and policy of remuneration of the Group and approve the remuneration package of Directors and senior management. The emoluments of the Directors are reviewed by the Remuneration Committee according to the Directors' respective responsibilities, individual performance and prevailing market conditions. The individual attendance record of each Remuneration Committee member is as follows:

Nomination Committee

The Nomination Committee comprises three INEDs, namely Mr. Wong Cho Kei Bonnie (Chairman of the Nomination Committee), Ms. Wong Pui Man and Mr. Wong Yau Sing.

The Nomination Committee considers and recommends to the Board suitable and qualified persons to become our Board members and is responsible for reviewing the structure, size and composition of our Board on a regular basis.

The composition and diversity of the Board were considered by taking into account the Group's board diversity policy by reference to a range of diversity measurable perspectives, including but not limited to their age, gender, skills, professional experience, knowledge and length of service. All executive Directors possess extensive and diversified experience in management, finance and broad industrial experience. The INEDs possess professional knowledge in corporate finance and accountancy with broad and extensive experience in business advisory and management, brand building and marketing, respectively. Further details of the Directors are set out in the section headed "Directors and Senior Management" in this report. The Group is of the view that the current Board composition represents an appropriate balance for the requirements of the business development of the Company and for effective leadership.

Corporate Governance Report

Where vacancies on the Board arise, the Nomination Committee will carry out the selection process in accordance with the Group's policy by making reference to the above perspectives of the proposed candidates which suit the Group's requirements. The Nomination Committee will recommend to the Board for the appointment of a Director in accordance with the following procedures and process:

- (a) The Nomination Committee will, giving due consideration to the current composition and size of the Board, develop a list of desirable skills, perspectives and experience at the outset to focus the search effort;
- (b) The Nomination Committee may consult any source it deems appropriate in identifying or selecting suitable candidates, such as referrals from existing Directors, advertising, recommendations from an independent agency firm and proposals from shareholders of the Company with due consideration given to the criteria which include but are not limited to:
 - (i) Diversity in aspects including but not limited to gender, age, experience, cultural and educational background, expertise, skills and know-how;
 - (ii) Sufficient time to effectively carry out their duties; their services on other listed and non-listed companies should be limited to reasonable numbers;
 - (iii) Qualifications, including accomplishment and experience in the relevant industries the Company's business is involved in;
 - (iv) Independence;
 - (v) Reputation for integrity;
 - (vi) Potential contributions that the individual(s) can bring to the Board; and
 - (vii) Commitment to enhance and maximize shareholders' value;
- (c) The Nomination Committee may adopt any process it deems appropriate in evaluating the suitability of the candidates, such as interviews, background checks, presentations and third-party reference checks;
- (d) Upon considering a candidate suitable for the directorship, the Nomination Committee will hold a meeting and/or by way of written resolutions to, if thought fit, approve the recommendation to the Board for appointment;
- (e) The Nomination Committee will thereafter make the recommendation to the Board in relation to the proposed appointment and the proposed remuneration package; and
- (f) The Board will have the final authority on determining the selection of nominees and all appointment of Directors will be confirmed by the filing of the consent to act as Director of the relevant Director (or any other similar filings requiring the relevant Director to acknowledge or accept the appointment as Director, as the case may be) to be filed with the Companies Registry of Hong Kong.

During the year ended 31 December 2020, no new Director was appointed.

Corporate Governance Report

During the year ended 31 December 2020, one meeting of the Nomination Committee was held to review the structure, size, composition and diversification (including the skills, knowledge and experience) of the Board, and review the policy of Directors' nomination related matters, assess the independence of INEDs and make recommendations to the Board on the proposal of re-appointment of Directors at the forthcoming annual general meeting. The individual attendance record of each Nomination Committee member is as follows:

Name of Director	Attendance
Mr. Wong Cho Kei Bonnie (<i>Chairman</i>)	1/1
Ms. Wong Pui Man	1/1
Mr. Wong Yau Sing	1/1

Audit Committee

The Audit Committee comprises three INEDs, namely Mr. Wong Yau Sing (Chairman of the Audit Committee), Mr. Wong Cho Kei Bonnie and Ms. Wong Pui Man.

The primary duties of our Audit Committee are to review and supervise our financial reporting process and internal control system and to provide advice and comments to our Board.

During the year ended 31 December 2020, four meetings of the Audit Committee were held to review the quarterly, interim and annual consolidated financial statements, including the Group's adopted accounting principles and practices, internal control systems and financial reporting matters (in conjunction with the external auditors for the audited results). The Audit Committee endorsed the accounting treatments adopted by the Company and, to the best of its ability assured itself that the disclosures of the financial information in the Company's quarterly, interim and annual report comply with the applicable accounting standards and the GEM Listing Rules. The individual attendance record of each Audit Committee member is as follows:

Name of Director	Attendance
Mr. Wong Yau Sing (<i>Chairman</i>)	4/4
Mr. Wong Cho Kei Bonnie	4/4
Ms. Wong Pui Man	4/4

The Group's unaudited quarterly and interim results and audited annual results published for the year ended 31 December 2020 have been reviewed by the Audit Committee, which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements and that adequate disclosure has been made.

Corporate Governance Report

Risk Management Committee

The Risk Management Committee comprises one executive Director, namely Mr. Schubert Chong (Chairman of the Risk Management Committee) and two INEDs, namely Mr. Wong Cho Kei Bonnie and Ms. Wong Pui Man.

The primary duties of the Risk Management Committee are to review the Company's risk management policies and standards and supervise and monitor the Company's exposure to risks of sanction-related laws and regulations administered by the US, the EU, the United Nations and Australia.

During the year ended 31 December 2020, two meetings of the Risk Management Committee were held to review the Group's risk management policies and standards and supervise and monitor our Company's exposure to International Sanctions risks. The individual attendance record of each Risk Management Committee member is as follows:

Name of Director	Attendance

Corporate Governance Report

CHANGES IN CONSTITUTIONAL DOCUMENTS

During the year ended 31 December 2020, there was no significant change in the constitutional documents of the Company.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges that it is responsible for the risk management and internal control systems and reviewing their effectiveness on an ongoing basis. Such risk management and internal control systems are designed for managing risk rather than eliminating the risk of failure to achieve business objective, and can only provide reasonable and not absolute assurance against material misstatement or loss.

PROCESS USED TO IDENTIFY, EVALUATE AND MANAGE SIGNIFICANT RISKS

The Board, through the Risk Management Committee and the Audit Committee, has conducted annual review of the effectiveness of the Group's risk management and internal control systems for the year ended 31 December 2020, covering the material financial, operational and compliance controls, and considered the Group's risk management and internal control systems effective and adequate.

The senior management of the Group updates and reports the key risk areas, including any remedial plans, if deemed necessary or appropriate, to the Risk Management Committee for consideration. The identified key risks areas and the appropriate risk mitigation strategies were reviewed and commented by the Board at its year-end meeting. The principal risks and uncertainties of the Group are set out in on page 8 of this annual report.

The Audit Committee has also annually reviewed the adequacy of resources, qualifications, experience and training programs of the Group's accounting, internal audit and financial reporting functions and considered that the staffing and the appointed consultant are adequate and competence to carry out their roles and responsibilities.

Further, the Company formulated the inside information policy. The Company regularly reminds the directors and employees about due compliance with all policies regarding the inside information.

HANDLING AND DISSEMINATION OF INSIDE INFORMATION

With respect to the monitoring and disclosure of inside information, the Company has formulated and implemented its guidelines, with an aim to ensure that the insiders abide by the confidentiality requirement and fulfil the disclosure obligation. The guidelines include, but not limited to, the procedures as follows:

- The Group has strictly prohibited unauthorised use of confidential or inside information;
- The Group has stipulated policy on handling of rumours, unintentional selective disclosure and waiver to the disclosure of inside information, external communication guidelines and compliance and reporting procedures.
- The Group authorised only the executive Directors and company secretary for responding to external enquiries about Group's affairs; and
- Dissemination of inside information of the Company shall be conducted by publishing the relevant information on the website of GEM and the Company, according to the requirements of the GEM Listing Rules.

SHAREHOLDERS' RIGHTS AND INVESTOR RELATIONS

Investor Relations and Communications with Shareholders

The Group is committed to maintaining a high level of transparency and employs a policy of open and timely disclosure of relevant information to its Shareholders.

The Board strives to encourage and maintain constant dialogue with its Shareholders through various means. The Company updates its Shareholders on its latest business developments and financial performance through its annual, interim and quarterly reports. The website of the Company has provided an effective communication platform to the public and the Shareholders. During the annual general meeting held on 24 April 2020, all Directors attended the meeting and met the Shareholders.

Shareholders may send written enquiries to the Company, for the attention of the Board or Company's company secretary, by fax: (852) 3580 8095, e-mail at mkt-kb@ahsay.com or mail to 28th Floor, Ford Glory Plaza, 37 Wing Hong Street, Lai Chi Kok, Kowloon, Hong Kong. Appropriate members of the Board and senior management are ready to respond to enquiries from Shareholders and investors on a timely basis.

The Company has disclosed all necessary information to the Shareholders and investors and established a range of communication channels between itself, its Shareholders and investors in accordance with the GEM Listing Rules. The Company also communicates with the public including potential investors through its periodic reports and announcements. The focus of the Company is to ensure information disclosure is timely, fair, accurate, truthful and complete thereby enabling the public as well as the investors to make rational and informed decisions.

Procedures for Shareholders to Convene an Extraordinary General Meeting

The following set out the procedures for Shareholders to convene an extraordinary general meeting ("EGM") of the Company in accordance with article 58 of the Articles of Association.

One or more Shareholders ("Requisitionist(s)") holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the company secretary of the Company, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting, the Requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expense incurred by the Requisitionist(s) as a result of the failure of the Board shall be reimbursed to the Requisitionist(s) by the Company.

Corporate Governance Report

Procedures for Shareholders to Propose a Person for Election as a Director

The provisions for a Shareholder to propose a person for election as a Director are set out in article 85 of the Articles of Association.

If a Shareholder wishes to propose a person for election as a Director at a general meeting, he/she should deposit (i) a written notice containing the information of the person to be proposed to act as a Director as required by Rule 17.50(2) of the GEM Listing Rules, duly signed by the Shareholder who wishes to make such proposal; and (ii) a consent notice in writing duly signed by the person being proposed to be elected as to his/her willingness to be elected and consent of publication of his/her information pursuant to the GEM Listing Rules, during a period commencing on the day after the dispatch of the notice of the general meeting and ending no later than seven clear days before the date of such general meeting.

Procedures for Shareholders to Put Forward Proposals at Shareholders' Meetings

There are no provisions allowing shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised). However, shareholders may follow the procedure set out in the section headed "Procedures for Shareholders to Convene an Extraordinary General Meeting" above for including a resolution at an EGM. The requirements and procedures are set out above.

NON-COMPETITION UNDERTAKINGS BY CONTROLLING SHAREHOLDERS

Each of the Controlling Shareholders has made an annual declaration to the Company that during the year ended 31 December 2020, it has complied with the terms of non-compete undertakings ("Non-Compete Undertakings") given in favour of the Company which are contained in the Deed of Non-Competition Undertaking. Details of the Non-Compete Undertakings are set out in the section headed "Relationship with Our Controlling Shareholders" of the Prospectus.

The INEDs have also reviewed the status of compliance by each of the Controlling Shareholders with the undertakings in the Non-Compete Undertakings and have confirmed that, as far as the INEDs can ascertain, there is no breach of any of the undertakings in the Non-Compete Undertakings.

Environmental, Social and Governance Report

ABOUT THIS REPORT

Overview

The Company's board of directors ("Board") is pleased to present this Environmental, Social and Governance ("ESG") Report (the "Report") of Ahsay Backup Software Development Company Limited (the "Company") and its subsidiaries (collectively the "Group"), aims to disclose the overall policies, commitments and strategies on the sustainable development of the Group.

Reporting Period

Unless otherwise specified, this Report covers our progress and performance on sustainability during the 2020 financial year, from 1 January 2020 to 31 December 2020.

Reporting Boundary

Unless otherwise specified, the reporting scope of this Report is the same as our 2019 Annual Report covering the Company and all of its subsidiaries. The reporting principles of "Materiality", "Quantitative", and "Consistency" as set out in the ESG Reporting Guide located in Appendix 20 to the GEM Listing Rules published by The Stock Exchange of Hong Kong Limited ("HKEX") (the "Guide"), underpin the preparation of this Report.

ESG MANAGEMENT AND GOVERNANCE

The Group believes that sound ESG performance is critically important to the sustainable development of its business and community and the Group is committed, not only to achieving strong financial results, but also to promoting environmental protection, social responsibility and effective corporate governance for its long term growth. We also integrate different environmental and social considerations into our daily operation to ensure full compliance to regulatory requirements and reduce our environmental and social impacts.

The Board directly supervises ESG matters and is responsible for formulating and implementing management strategies, and receiving updates from the ESG working group on key ESG matters and decisions. Our ESG working group is composed of the heads of various departments. Its main responsibilities are to implement and execute relevant ESG policies and measures, and to collect relevant data for report disclosure. The members of the ESG working group have a good understanding of our business and operations. The ESG working group will also check and evaluate the Company's performance in different aspects, such as environment, employment, health and safety, labor standards, product responsibilities to ensure the effective implementation of ESG work.

Environmental, Social and Governance Report

STAKEHOLDER ENGAGEMENT

The Group believes that regular communication with stakeholders can help to drive its growth. The Group is committed to maintaining the sustainable development of its businesses and providing support to environmental protection and the community in which it operates. The Group maintains a close tie with its stakeholders, including government, investors, management, customers, employees, business partner, community and the public, and strives to balance their opinions and interests through constructive communications in order to determine the directions of its sustainable development. The Board is responsible for assessing and determining its environmental, social and governance risks, and ensuring that the relevant risk management and internal control systems are operating properly and effectively.

Stakeholder Group Engaged		Engagement Channels
Internal stakeholders	Management	— Regular meetings
	Employees	— Regular meetings — Annual appraisal meetings — Intranet and emails
External stakeholders	Investors and shareholders	— Annual general meetings — Annual, interim and quarterly report — Press releases and announcements
	Customers and business partners	— Company website and social media — Email and customer service hotline — Visits and meetings
	Public and Communities	— Website information disclosure on HKEX and the Company

MATERIALITY ASSESSMENT

We previously performed a materiality assessment by interviewing and conducting surveys with stakeholders including our senior management, employees and etc. to score each sustainability issue according to its materiality to business operations in order to understand the priority of different ESG issues in our business. The key material ESG issues raised by the stakeholders mainly focused on social aspects. On the other hand, environmental aspect was considered less relevant to the Group. Based on the stakeholders' feedback, the issues in social aspects were identified as follows:

- Employment
- Health and Safety
- Development and training
- Labour Standards
- Product Responsibility
- Anti-Corruption
- Community Investment

The Group welcomes stakeholders' feedback on the environmental, social and governance approach and performance by giving suggestions or share views via email at mkt-kb@ahsay.com.

Environmental, Social and Governance Report

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to enhancing environmental protection to minimize the impact of its activities on the environment, and compliance with applicable environmental laws. It is the Group’s policy to promote clean operation and make the most efficient use of resources in its operations, and minimize wastes and emission. The Group encourages environmental protection and promotes awareness towards environmental protection to the employees. Green office practices are encouraged such as turning off of idle lights and electronic appliances to minimise energy consumption and double-sided printing and copying.

The Group will review its environmental practices from time to time and will consider implementing further eco-friendly measures and practices in the operation of the Group’s business to move towards adhering the 3Rs — “Reduce”, “Recycle” and “Reuse” and enhance environmental sustainability.

EMISSIONS

The Group is principally engaged in the provision of online backup software solutions to clients via internet. The operations of the Group do not have significant impact to the environment and do not generate hazardous waste and air emission including NO_x, SO_x and other pollutants. Greenhouse gas (“GHG”) emissions are indirectly generated from electricity consumed at the Group’s workplace with minimal emissions. The GHG emission during the reporting period is as follows:

	2020	2019
Indirect emissions (Scope 2) CO ₂ emissions from electricity generation (kgs) (Note)	146,934	136,743
Indirect emissions (Scope 2) per floor area (kgs/m ²)	124.5	116.2
per employee (kgs/employee)	1,175.5	1,302.3

Note:

The Group estimated its GHG emissions for the reporting period through calculation with relevant methodology, and with data available on electricity consumption and emission factor from invoices and references to third parties documents (including electricity consumption data, and carbon intensity factor that are available on bills and sustainability reports from electricity provider or local government respectively).

The Group undertakes environmental protection as part of its corporate responsibilities, and it is fully aware of the importance of sustainable environmental development in achieving sustainability in its operations. Conservation of the environment is a key focus for the Group. The Group complies with environmental legislation, encourages environmental protection and promotes environmental protection awareness to all employees. The Group has implemented a number of measures such as reducing carbon emissions, increasing energy efficiency and conserving water resources in order to deliver our commitment to environmental protection. The Group has launched a number of waste management programs, including recycling of glass, paper and metal. Paper waste is our major source of non-hazardous waste in the office. We have promoted a paperless work environment to reduce paper waste. The Group did not find any records of significant waste disposal disposed of at landfills during the year.

During the year ended 31 December 2020, the Group was not aware of any material non-compliance with relevant laws and regulations, including but not limited to the Water Pollution Control Ordinance (Chapter 358 of the Laws of Hong Kong), Waste Disposal Ordinance (Chapter 354 of the Laws of Hong Kong) and Environmental Impact Assessment Ordinance (Chapter 499 of the Laws of Hong Kong) that have a significant impact on the Group relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.

Environmental, Social and Governance Report

USE OF RESOURCES

During the production and operation process of the Group, we, directly and indirectly, consume resources and energy, such as water and electricity. Energy Saving and Consumption Reduction measures have been implemented by the Group to encourage the employee to avoid unnecessary wastage of electricity, water and energy usage including:

- (1) Educating employees and posting water-saving notices in office to save water and reduce the amount of domestic sewage discharged.
- (2) Ensuring the water supply is at its optimal working condition. When leakage is discovered, it will be promptly repaired.
- (3) The use of electricity in the office of the Group must comply with the principles of power saving, safety first, high efficiency and low consumption.
- (4) Lights and electronic appliances in living areas or workplaces must be turned off when not in use.
- (5) Every member of staff and management must turn off the power for each department's computers, photocopy machines, printers and facsimile machines when they are off duty or on leave.
- (6) Other than formal documents materials that require the use of paper, each department is advised to handle documents electronically. When the use of paper is required, each paper must be printed double-side except for formal and confidential documents.
- (7) Reducing unnecessary business trips by staff members after taking into account the environmental impact.
- (8) No printing and photocopying of materials unrelated to work.
- (9) Implementing an optimal air-conditioning control program to select the best configuration automatically, based on the in-door requirement and out-door condition.

With the Group operating its core backup business and information platform via internet, the use of resources mainly represents the indirect energy consumption from electricity and water and paper consumption. The finished products of the Group do not require packaging.

Environmental, Social and Governance Report

The summary of the use of resources are as follows:

(1) Energy consumption

Indicators	2020	2019
Total energy consumption (kWh)	285,701	268,124
Total energy consumption per floor area (kWh/m ²)	242.8	227.9
per employee (kWh/employee)	2,285.6	2,553.6

(2) Water consumption

Total water consumption per floor area (m ³ /m ²)	0.2	0.4
per employee (m ³ /employee)	2.2	4.7

Note:

Water consumption of our office in South Korea is not included as measurement was not possible. For example, we are billed at a fixed rate in South Korea by the building management. Intensity calculation hence does not include South Korea office.

(3) Paper consumption

Indicators	2020	2019
Total paper consumption (Reams)	155	201
Total paper consumption per employee (Reams/employee)	1.2	1.9

THE ENVIRONMENT AND NATURAL RESOURCES

Since our core operations are confined to the office environment, the impact of the Group on the environment and natural resources is not significant and is mainly attributed to the use of electricity, water, papers in office. During the reporting period, we have set a number of measures to reduce the use of resources (refers to above sections "Emissions" and "Use of Resources" for details). In order to achieve further reductions on the environmental impact and use of natural resources, the Group will continue to make assessment and minimise the environment impact.

Environmental, Social and Governance Report

EMPLOYMENT

The Group has established and implemented the “Employee Handbook”, which contains our policies relating to human resources, covering areas such as compensation and dismissal, recruitment and promotion, working days and hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits as well as welfare for our employees in accordance with the Employment Ordinance (Chapter 57 of the Laws of Hong Kong), the Labor Code of the Philippines, the Labor Standards Act of the Republic of Korea and other applicable laws. The Group also aims to promote diversity in the workplace, including in terms of age, gender and nationality, as well as a culture of equal opportunity. Management regularly reviews the Group’s remuneration policy in relation to relevant market standards. To retain and motivate our talents, we offer competitive remuneration, which is reviewed annually based on the staff work performance appraisal procedures. We offer full-time employees other fringe benefits such as medical insurance coverage and annual leave benefits as per our annual leave policies, which are documented in the Employee Handbook, and employees’ leave entitlement is also clearly documented therein. The Group strictly complies with the above said relevant standards, rules and regulations. For the year ended 31 December 2020, the Group was not aware of any material non-compliance with relevant standards, rules and regulations that have a significant impact on the Group relating to compensation and dismissal, recruitment and promotion, working days and hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare.

HEALTH AND SAFETY

Health and safety are the most pressing concern across our business operations. Human capital is the most valuable asset of the Group. Developing and retaining talent is vital to our success. The Group is committed to providing its employees with a safe, pleasant and healthy working environment. The principal office and representative office of the Group are located at 28th Floor, Ford Glory Plaza, 37 Wing Hong Street, Lai Chi Kok, Kowloon, Hong Kong with a gross floor area of approximately 10,377 square feet and Unit 29B, 29th Floor, Chatham House, No. 116 Corner Valero & Rufino Street, Salcedo Village, Makati City, Philippines with a gross floor area of approximately 1,593 square feet respectively, which provide employees with a breakout area to relax, gather and hold meetings. During the year, the Group completed the purchase of an additional office in the Philippines for its own use as office space which located at Unit 24 C&D, 24th Floor, Chatham House, No.116 Corner Valero & Rufino Street, Salcedo Village, Makati City, Philippines with a gross floor area of approximately 4,497 square feet.

Due to the COVID-19 pandemic during the year, we adopted special working arrangements to allow our employees to work from home to minimize social gathering and adopted a rotation roster for employees who request to work in office to reduce the chances of infection. We have also implemented stringent infection preventive measures to protect its employees, such as daily body temperature measurement, providing sufficient surgical masks and alcohol-based hand rub in the offices. Employees were required to wear masks in office area at all times and meetings via online video meeting software to avoid face to face contact and overseas business trips.

Also, employees were required to follow the “Strict 14 days quarantine work from home arrangement” for the staff resides at the same block of buildings in which the confirmed patients living in and the Group followed the quarantine requirement of the countries where it has operations to minimise the spreading of the virus. As at 31 December 2020, we reported no cases of infection among our staff.

To provide employees with a safe working environment, a long lighting system has been installed in the office area. A conspicuously placed illuminated sign bearing the symbols of exit direction to leave the workplace at each doorway during emergency especially in the event of a fire. Fire drills are carried out at regular intervals to demonstrate escape routes and provide sufficient training to employees on fire safety. Each case of injury, is required to be reported to the Human Resources Department and be individually assessed under the internal guideline procedures.

Occupational Health and Safety Data	2020	2019	2018
Number of work injury cases	0	0	0
Number of work-related fatalities	0	0	0
Lost days due to work injury	0	0	0
Rate of work-related fatalities	0	0	0

The Group also provides a designated private space in the office building to ensure female employees in need receive the adequate support during working hours. These “Breastfeeding Friendly Workplace” measures demonstrate the Group’s commitment to the wellbeing of its employees and their families.

Regular inspections and management review of health and safety have been performed to ensure the effectiveness of the policies and measures. During the year ended 31 December 2020, the Group was not aware of any material non-compliance with the Group’s Occupational Safety and Health Policy.

DEVELOPMENT AND TRAINING

The Group strives to promote the long-term development of its employees by providing learning opportunities that broaden their skills and make them valuable assets to the Group. Each department of the Group is responsible for determining its training needs for the employees in its department. Any suggested applicable training courses either arranged internally or by external service providers shall be submitted to the senior management of the Group for approval. Knowledge, skills and capacities of employees are vital to continuous business growth and success of the Group. The Group ensures that all employees can fulfill the relevant requirements of their job duties in terms of education, training, technical and work experience. We also have subsidies for continuing education where all permanent employees are entitled to annual funding for continued learning. We sponsor further studies and associated examinations up to a maximum of HK\$5,000 per calendar year.

LABOUR STANDARDS

Employment of staff by the Group must comply with the Employment Ordinance in Hong Kong, The Labor Code of The Philippines and Labor Standards Act of the Republic of Korea. The Group strictly complied with the relevant rules and regulations for the year ended 31 December 2020. The Group has a zero tolerance policy towards the use of forced labor and child labor in our business operations and regularly reviews the overall employment practices to avoid any potential violations or irregularities. Each employee is required to fill in a resume upon joining the Group. Should the employee falsify their identity or provide false personal particulars, the said employee would be considered to have committed a serious breach of the Group's rules and regulations and the Group will terminate employment according to the employment contract. Moreover, the Group regularly monitors information and data related to employment to prevent non-compliance with rules and regulations especially in relation to preventing child and forced labour.

SUPPLY CHAIN MANAGEMENT

Although the business nature of the Group, the supply chain has no significant adverse impact on the environment or society, the Group will continuously assess the business operation of the Group and reduce any possible negative impact of our business operations on the environment and society.

Environmental, Social and Governance Report

PRODUCT RESPONSIBILITIES

Maintaining the high quality and standards of our products is crucial to the Group's sustainable development and a main contribution to the Group's success. Therefore, maintaining consistency in quality and precision of our products are the Group's major priorities. The newly developed or updated software products of the Group are subject to quality tests performed by our quality assurance team before release to the public. The Group also provides after-sales services such as software upgrades and maintenance services, which mainly include software upgrades, email support, ticket support, remote trouble shooting, etc.

Not only is the Group on a quest to constantly deliver quality products and services to its clients, it also makes dedicated efforts to deal with complaints about its products and services. As a result, the Group has established procedures to handle complaints by appointing designated staffs to investigate complaint cases and implement corrective measures, with a view to prevent the reoccurrence of similar complaints.

	2020	2019
Number of products and service related complaints received	4	9

During the year ended 31 December 2020, the Group was not aware of any material non-compliance with the relevant standards, rules and regulations. No products were subject to recalls for safety and health reasons during the year ended 31 December 2020.

For customer data protection and privacy policies, the Group strictly manages and protects the data collected from its business partners, customers, employees and suppliers to ensure their privacy and confidentiality. The Group is committed to maintaining a secure environment to ensure the entirety of information being collected are kept confidential, and company servers and computers are protected with access passwords. The Group complies with the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong) and local relevant law and regulations and is strictly abided by the regulations in the collection, disclosure, usage, retention, and storage of data to ensure data integrity and safety.

ANTI-CORRUPTION

The Group does not tolerate any form of corruption. Code of conduct on security of information & records (the "Code of Conduct") are clearly defined and included in the "Employee Handbook". Employees should take all reasonable care to safeguard the security of the Group's confidential information, and should not disclose the Company's activities, policies and operations without prior approval. Employees are required to adhere to the Code of Conduct and are prohibited to accept gifts and minor refreshments from any person who has an influence on the employee's business behavior. The Group has also established policies and procedures to deal with money laundering in its operation. The whistleblowing report is directly escalated to the Chairman of the Group or the members of the Audit Committee via email. To prevent any retaliation against whistleblowers and maintain the effectiveness of the mechanism, we treat every whistleblowing case with confidentiality and sensitivity. During the year ended 31 December 2020, there were no complaints of corruption against the Group or any of its staff.

COMMUNITY INVESTMENT

The Group carries out local community engagement and community activities based on local communities' needs. During the year ended 31 December 2020, the Group established the Ahsay Backup Scholarship (the "Scholarship") donating a number of scholarships to qualified full time undergraduates of The Chinese University of Hong Kong on an annual basis. The Scholarship aims to reward outstanding students and offer students summer internship opportunities to apply their academic knowledge in their career interests. We also joined the donation for IT Professional Placement Award Scheme 2019/20 held by City University of Hong Kong in order to provide students the opportunity to experience and appreciate working in a real working environment. During the year ended 31 December 2020, our total donations and scholarships amounted to HK\$190,000 (2019: HK\$521,000).

Independent Auditor's Report

TO THE SHAREHOLDERS OF AHSAY BACKUP SOFTWARE DEVELOPMENT COMPANY LIMITED

亞勢備份軟件開發有限公司

(Incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Ahsay Backup Software Development Company Limited (the "Company") and its subsidiaries (the "Group") set out on pages 55 to 115, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Independent Auditor's Report

Key audit matter

Revenue recognition

During the year, the Group had certain bundled transactions under contracts with customers, covering the sale of a software license right packaged with free upgrades and maintenance services. Revenue recognition of such transactions involved significant judgements and estimates including identification of performance obligations including the software license right and upgrades and maintenance service elements in the contracts, and the allocation of the transaction price to each element with reference to its stand-alone selling price.

Where management is unable to determine the stand-alone selling price for all elements, the residual method is used. Under this method, management estimates the selling price of the software license right by making reference to the total contract consideration less the observable stand-alone selling prices of the upgrades and maintenance services.

Disclosures in relation to the accounting policy on revenue recognition are included in note 3 – summary of significant accounting policies and note 4 – critical accounting judgement and key sources of estimation uncertainty to the consolidated financial statements.

How our audit addressed the key audit matter

Our procedures included:

- (i) understanding, assessing and testing the Group's processes and key controls over recognising revenue from bundled transactions, the identification of product and service elements and the calculation of the stand-alone selling price;
- (ii) evaluating the judgements and estimates made by management in applying the residual method and assessing the validity of the observable stand-alone selling prices;
- (iii) re-performing management's calculations of revenue of each performance obligation using the residual method; and
- (iv) engaging internal IT specialists to perform IT general controls and the relevant IT application controls in relation to the revenue recognition, including automated system calculations and system enforced access controls.

Independent Auditor's Report

Other information included in the Annual Report

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated financial statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Independent Auditor's Report

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Wong Yat Kin.

1. GENERAL INFORMATION

Ahsay Backup Software Development Company Limited (the “Company”) is a public listed company incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands and its shares were listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). Its immediate holding company is All Divine Investments Limited, a private company incorporated in the British Virgin Islands (the “BVI”) with limited liability; and, in the opinion of the directors, its ultimate holding company is Able Future Investments Limited, a private company incorporated in the BVI with limited liability. The address of the registered office of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The address of the principal place of business of the Company is 28th Floor, Ford Glory Plaza, 37 Wing Hong Street, Lai Chi Kok, Hong Kong.

The Company is an investment holding company and its subsidiaries are principally engaged in the provision of online backup software solutions to clients via the internet.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is the same as the functional currency of the Company.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention. These financial statements are presented in HK\$ and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of the subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 3	<i>Definition of a Business</i>
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i>
Amendment to HKFRS 16	<i>COVID-19-Related Rent Concessions</i> (early adopted)
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i>

The nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised HKFRSs are described below:

- (a) *Conceptual Framework for Financial Reporting 2018* (the "Conceptual Framework") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.
- (b) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.
- (c) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("RFR"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

- (d) Amendment to HKFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the COVID-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective for annual periods beginning on or after 1 June 2020 with earlier application permitted and shall be applied retrospectively. The amendment did not have any impact on the financial position and performance of the Group.
- (e) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework²</i>
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	<i>Interest Rate Benchmark Reform — Phase 2¹</i>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture⁴</i>
HKFRS 17	<i>Insurance Contracts³</i>
Amendments to HKFRS 17	<i>Insurance Contracts^{3, 6}</i>
Amendments to HKAS 1	<i>Classification of Liabilities as Current or Non-current^{3, 5}</i>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use²</i>
Amendments to HKAS 37	<i>Onerous Contracts — Cost of Fulfilling a Contract²</i>
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 ²

¹ Effective for annual periods beginning on or after 1 January 2021

² Effective for annual periods beginning on or after 1 January 2022

³ Effective for annual periods beginning on or after 1 January 2023

⁴ No mandatory effective date yet determined but available for adoption

⁵ As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 *Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* was revised in October 2020 to align the corresponding wording with no change in conclusion

⁶ As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (continued)

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK (IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK (IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative RFR. The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments are effective for annual periods beginning on or after 1 January 2021 and shall be applied retrospectively, but entities are not required to restate the comparative information.

The Group had certain other borrowings denominated in Korean Won ("KRW") based on the variable market interest rates as at 31 December 2020. If the interest rates of these borrowings are replaced by RFRs in a future period, the Group will apply this practical expedient upon the modification of these borrowings when the "economically equivalent" criterion is met and expects that no significant modification gain or loss will arise as a result of applying the amendments to these changes.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (continued)

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

Notes to the Consolidated Financial Statements

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (continued)

Annual Improvements to HKFRSs 2018–2020 sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Business combinations and goodwill (continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

If the initial accounting for a business combination was incomplete by the end of last reporting period in which the combination occurred, during the measurement period (i.e., the period after the acquisition date during which an entity may adjust the provisional amounts recognised for a business combination), the Group shall recognise adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the Group shall revise comparative information for prior periods presented in financial statements as needed, and disclose the nature and amount of any measurement period adjustments recognised during the reporting period.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Revenue from contracts with customers

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Contracts with multiple performance obligations (including allocation of the transaction price)

For contracts that contain more than one performance obligation, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation (or distinct good or service) reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised good or service to the customer.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from contracts with customers (continued)

Output method

The progress towards complete satisfaction of a performance obligation is measured based on the output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depicts the Group's performance in transferring control of goods or services.

The Group recognises revenue from the following major sources:

(a) Software license sales

The Group sells software licenses directly to its customers. The sale of a software license includes one-year free software upgrades and maintenance services. As a result, the sale of the software license is a contract with multiple performance obligations.

The revenue from software license sales includes software license sales and software upgrades and maintenance services, which are separately identifiable.

Contracts with multiple performance obligations (including allocation of the transaction price)

For software license sales, the Group considers the grant of license to be a right to use the Group's intellectual property and the performance obligation is satisfied at a point in time at which the license is granted. The Group allocates the transaction price to each performance obligation (or distinct good or service) on a relative stand-alone selling price basis. The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. The stand-alone selling price of the software license right is not directly observable and hence, the Group estimates it using the residual method. Under this method, the Group estimates the stand-alone selling price of the software license right by reference to the total contract consideration less the observable stand-alone selling price of the software upgrade and maintenance service such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised good or service to the customer.

Payment of the transaction price is due immediately when the customer purchases the software license. See accounting policy for revenue on the provision of software upgrades and maintenance services below.

(b) Software license leasing

The Group earns revenues by leasing software products to its customers and the nature of the Group's performance obligation in software license leasing is considered to be a right to access the Group's intellectual property. The Group accounts for the software license leasing as a performance obligation satisfied over time.

The normal credit term is 14-30 days upon the date of billing.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from contracts with customers (continued)

(b) *Software license leasing (continued)*

Variable consideration and “right to invoice” practical expedient

Software license leasing is charged at a fixed contractual rate per unit volume of backup storage consumed by customers on which the Group has the right to consideration. Though the consideration is variable at the inception of the contracts, the volume information is readily available right after the usage.

The Group has applied the “right to invoice” practical expedient to recognise revenues as invoiced as the Group’s right to payment is for an amount that corresponds directly with the value to the customer of the Group’s performance to date.

(c) *Provision of software upgrades and maintenance services*

Revenue from the provision of unspecified software upgrades and maintenance services is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation, as the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs.

The transaction price allocated to these services is recognised as a contract liability on initial recognition and is released on a straight-line basis over the period of service.

(d) *Provision of other services*

The Group provides other services, which are mainly support services, to customers. Certain types of such services are recognised as a performance obligation satisfied over time as the customer simultaneously receives and consumes the support services as the Group continues to provide the support services to the customer. Certain types of such services are recognised as a performance obligation is satisfied at a point in time as services are rendered without future performance obligations.

(e) *Sale of hardware devices*

Revenue from the sale of hardware devices is recognised at the point in time when control of the assets is transferred to the customer, generally on delivery of the hardware devices.

(f) *Information sharing service income*

Revenue from the provision of information sharing services is recognised at a point in time as services are rendered without future performance obligations.

(g) *Subscription fees*

Annual subscription fees are recognised over time on a straight-line basis over the subscription period as the customers simultaneously receive and consume the benefits of goods and services provided by the Group.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the control of the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) at the exchange rate prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered services entitling them to the contributions.

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities' carrying amounts resulting from service cost, interest and remeasurements are recognised in profit or loss except to the extent that another HKFRS requires or permits their inclusion in the cost of an asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

Income tax expenses represent the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “(loss) profit before tax” as reported in the consolidated statement of profit or loss and other comprehensive income because of the income or expense that is taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Related parties

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

(b) the party is an entity where any of the following conditions applies:

- (i) the entity and the Group are members of the same group;
- (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
- (iii) the entity and the Group are joint ventures of the same third party;
- (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group; (If the Group is itself such a plan) and the sponsoring employers of the post-employment benefit plan;
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment

Property, plant and equipment are stated in the consolidated statements of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimates accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases (continued)

Group as a lessee (continued)

(b) Lease liabilities (continued)

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of car parking spaces and a motor vehicle (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

Intangible assets (other than goodwill)

Customer relationships

Customer relationships acquired in a business combination are identified and recognised separately from goodwill based on fair value at the acquisition date. Subsequent to initial recognition, customer relationships acquired in a business combination are stated at cost less accumulated impairment losses and are amortised on a straight-line basis over their estimated useful lives of three years.

Internally-generated intangible assets — research and development expenditures

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is charged to profit or loss in the period in which it is incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets (other than goodwill) (continued)

Internally-generated intangible assets — research and development expenditures (continued)

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any).

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment on tangible and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of tangible and intangible assets is estimated individually, and when it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

The recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first out basis. Net realisable value represents the estimated selling price for inventories less all costs necessary to make the sales.

Notes to the Consolidated Financial Statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 in accordance with policies set out for "Revenue from contracts with customers" above. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial instruments (continued)

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses (“ECL”) on financial assets which are subject to impairment under HKFRS 9 (including trade receivables). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets is assessed collectively using a provision matrix with appropriate groupings based on its historical observed default rates which is adjusted for forward-looking estimates.

For all other instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, and the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 90 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying a significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis or catered for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the collective basis:

- Nature of financial instruments (i.e. the Group's trade and other receivables, and rental deposits paid are each assessed as a separate group);
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure that the constituents of each group continue to share similar credit risk characteristics.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial liability and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities including other payables are subsequently measured at amortised cost, using the effective interest method.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issued costs.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Notes to the Consolidated Financial Statements

4. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from this involving estimation (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Contracts with multiple performance obligations

Under the Group's arrangement on contracts with multiple performance obligations, the total contract consideration is allocated to each performance obligation based on their relative stand-alone selling price, as determined based on the stand-alone selling price of each performance obligation (or distinct good or service) when sold separately. Under the residual method, the Group estimates the stand-alone selling price of the software license sales by reference to the total contract consideration less the observable stand-alone selling price of the software upgrades and maintenance services. The Group is required to exercise judgement in revenue recognition particularly in the stand-alone selling price of the software upgrades and maintenance services in the arrangement. Significant changes in management judgement may result in material revenue adjustments.

Development costs

Careful judgement by the Group's management is applied when deciding whether the recognition requirements for development costs have been met. This is necessary as the economic success of any product development is uncertain and may be subject to future technical problems at the time of recognition. Judgements are based on the best information available at the time of incurrence of such costs.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

4. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued)

Estimated useful lives of internally-generated intangible asset arising from development activities (the "internally-generated intangible assets")

The Group's management determines the estimated useful lives and related amortisation charges and impairment for the internally-generated intangible assets. The estimate useful lives are based on the historical experience of the actual useful lives of the internally-generated intangible assets of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry activities.

Actual economic lives may differ from estimated useful lives. If the actual useful lives of the internally-generated intangible assets are less than the original estimated useful lives due to the changes in commercial and technological environment, such difference may result in impairment and will impact the amortisation charges for the remaining periods.

At 31 December 2020, the carrying amount of the internally-generated intangible assets was HK\$2,354,000 (2019: HK\$3,647,000). Details of the useful lives of the internally-generated intangible assets are disclosed in note 17.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating unit to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Further details are set out in note 16 to the financial statements.

5. REVENUE AND SEGMENT INFORMATION

Information reported to the executive directors of the Company, being the chief operating decision maker ("CODM"), for the purpose of resource allocation and assessment of segment performance, focuses on types of goods or services delivered or provided. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

Specifically, the Group's reportable and operating segments under HKFRS 8 *Operating Segments* are as follows:

Online backup software and related services segment	— Software license sales and leasing, provision of software upgrades and maintenance services, sale of hardware devices, and provision of other services
Information platform segment (previously known as information sharing services segment)	— Provision of information sharing services and an analysis tool

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

5. REVENUE AND SEGMENT INFORMATION (continued)

Segment revenue and results

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment results represent the loss from/profit earned by each segment without allocation of other income and other gains and losses that are not directly attributable to the segment as disclosed in the table below. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

The following is an analysis of the Group's revenue and results by reportable and operating segment:

Acquisition of a subsidiary (note 27)	706
Cost and carrying amount at 31 December 2019, 1 January 2020 and 31 December 2020	706

Impairment testing of goodwill

Goodwill acquired through a business combination is allocated to the online backup software cash-generating unit in South Korea for impairment testing.

Online backup software cash-generating unit

The recoverable amount of the online backup software cash-generating unit has been determined based on a value-in-use calculation using cash flow projections based on financial budgets covering a five-year period approved by senior management. The discount rate applied to the cash flow projections is 19.7% (2019: 19.9%) and cash flows beyond the five-year period were extrapolated using a growth rate of 2.0% (2019: 2.0%).

Assumptions were used in the value-in-use calculation of the above cash-generating unit for 31 December 2020 and 31 December 2019. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted revenue — The basis used to determine the value assigned to the budgeted revenue is the average revenue achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected business and market development.

Discount rate — The discount rate used is before tax and reflects specific risks relating to the relevant unit.

The other intangible assets represent the capitalised development costs incurred in developing the online backup software (i.e. the internally-generated intangible assets) and customer relationships acquired. The capitalised development costs are mainly employee related costs directly attributable to development activities. The development costs of other intangible assets comprise the following:

- a. Development costs for the next version of the Group's core backup product, amounting to HK\$2,354,000 (2019: HK\$2,101,000) — The Group will periodically launch a new version of their core backup product to the market and they are currently in the progress of developing the next version, which has a target launch date in 2022; and
- b. Development costs for the current version of the Group's core backup product ("Version 8"), was fully amortised as at 31 December 2020. (2019: HK\$1,546,000) — The Group launched Version 8 in January 2019.

The internally-generated intangible assets have finite useful lives and are amortised on a straight-line basis over the estimated useful lives of two years after the launch of the corresponding products.

The other intangible assets also included customer relationships acquired through a business combination. The customer relationships have finite useful lives and are amortised on a straight-line basis over the estimated useful lives of three years.

Prepaid operating expenses and other receivables	1,219	1,643
Total	4,357	4,691
Non-current assets		
Deposits paid	13	2,102

The Group's trade receivables consist of receivables from customers and credit card companies. The Group's sales are generally made through the internet when payment is normally required before delivery of software licenses and provision of services. For software license leasing which charges the customers monthly license fees on a pay-as-you-go basis, the Group offers a credit period of 14-30 days to these customers.

Details of impairment assessment of trade and other receivables and deposits paid as at 31 December 2020 and 31 December 2019 are set out in note 31.

20. FINANCIAL ASSET AT AMORTISED COST

As at 31 December 2020, the financial asset at amortised cost of the Group represented debt securities with fixed maturity date, denominated in United States Dollars ("US\$") with a fixed coupon rate of 8.9% per annum.

21. BANK BALANCES AND CASH

Bank balances carry interest at market rates which ranged from 0.01% to 2.50% (2019: 0.01% to 3.10%) per annum as at 31 December 2020 and 2019.

Note:

(a) DETAILS OF CONTRACT LIABILITIES ARE AS FOLLOWS:

	31 December 2020 HK\$'000	31 December 2019 HK\$'000	1 January 2019 HK\$'000
Trade and other deposits from customers	2,174	1,901	2,153
Advances received for software upgrades and maintenance services	13,387	12,146	13,249
Advances received for other services	44	45	55
Total contract liabilities	15,605	14,092	15,457

Contract liabilities include short-term advances received for software license sales, software license leasing, software upgrades and maintenance services, information sharing service, subscription fee and other services. The increase in contract liabilities in 2020 was mainly due to the increase in advances received from customers in relation to the provision of software upgrades and maintenance services. The decrease in contract liabilities in 2019 was mainly due to the decrease in advances received from customers in relation to the provision of software upgrades and maintenance services.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

23. CONTRACT AND OTHER LIABILITIES (continued)

The following table shows the amount of revenue recognised in the current year which relates to carried-forward contract liabilities.

Revenue recognised that was included in the contract liabilities balance at the beginning of the year	2020 HK\$'000	2019 HK\$'000
Trade and other deposits from customers	1,901	2,153
Software upgrades and maintenance services fees received in advance	11,273	12,622
Other service fees received in advance	45	55
	13,219	14,830

Typical payment terms which impact on the amount of contract liabilities recognised are as follows:

- **Trade and other deposits from customers and advances received for software upgrades and maintenance services**

When the Group receives a deposit before a service is rendered, this will give rise to a contract liability at the beginning of a contract, until the revenue recognised on the relevant contract exceeds the amount of the deposit.

24. DEFERRED TAX ASSETS/LIABILITIES (continued)

The Group has tax losses arising in Hong Kong of approximately HK\$36,000,000 (2019: HK\$29,012,000), subject to the agreement by the Hong Kong Inland Revenue Department, that are available indefinitely for offsetting against future taxable profits arising in Hong Kong of the companies in which the losses arose. The Group has tax losses arising in Mainland China, South Korea, Taiwan and Singapore of approximately HK\$291,000 (2019: HK\$332,000), HK\$1,556,000 (2019: HK\$1,722,000), HK\$18,000 (2019: Nil) and HK\$43,000 (2019: Nil) respectively, that will expire in one to five years, one year, ten years, and are available indefinitely, respectively, for offsetting against future taxable profits.

As at 31 December 2020, deferred tax asset of HK\$193,000 (2019: Nil) was recognised for unused tax losses of a subsidiary arising in Hong Kong of approximately HK\$1,168,000 (2019: Nil) to the extent to offset against taxable temporary differences at that date. No deferred tax assets are recognised for the remaining unused tax losses of this subsidiary as it is uncertain that taxable profit will be available against which the losses can be utilised for this subsidiary of the Group. In addition, no deferred tax assets are recognised for other unused tax losses arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

27. BUSINESS COMBINATION

On 29 April 2019, the Group's wholly-owned subsidiary, Ahsay HK, entered into a shareholder agreement (the "Shareholder Agreement") with Ms. Kim Sun Hee, Ms. Kim Hyeon OK, Mr. Lee Sang Don, Mr. Yu Chulkyun and Mr. Park Sung-IL (collectively known as the "Existing Shareholders"), pursuant to which the Group agreed to subscribe for 20,000 ordinary shares of Ahsay Korea Co., Ltd ("Ahsay Korea"), formerly known as HM Systems Co. Ltd, for a cash consideration amounting to KRW100,000,000 (equivalent to approximately HK\$670,000) and the Group will further invest an additional 30,000 ordinary shares of Ahsay Korea for an additional cash consideration amounting to KRW150,000,000 (equivalent to approximately HK\$1,005,000). As at the date of acquisition, the Group held 28.57% of the shares of Ahsay Korea.

During the year ended 31 December 2019, the Group has further invested in additional ordinary shares of Ahsay Korea at an aggregate cash consideration amounting to KRW300,000,000 (equivalent to approximately HK\$2,022,000). As at 31 December 2020 and 2019, the Group held 52.17% of the shares of Ahsay Korea.

Based on the Shareholder Agreement, the composition of the board of directors of Ahsay Korea shall consist of four directors and the Existing Shareholders shall be entitled to appoint two directors and Ahsay HK shall be entitled to appoint two directors. In addition, Ahsay HK has the right to nominate the chairman of the board of directors of Ahsay Korea and the chairman is entitled to a final vote in case of an equality of votes at a board meeting. The directors of the Company concluded that the final vote of the chairman is substantive, as it provides Ahsay HK the power over the relevant activities, which are directed by voting rights of the board of directors of Ahsay Korea. As at the date of acquisition, Ahsay HK has appointed two directors to the board of directors of Ahsay Korea and one of the directors, being the representative of Ahsay HK, is the chairman of Ahsay Korea.

Furthermore, the Shareholder Agreement also states that Ahsay HK and the Existing Shareholders shall ensure that they, their representatives, proxies and agents shall exercise their votes in a manner in compliance with the provisions of the Shareholder Agreement.

As such, Ahsay HK has sufficient dominant voting rights to direct the relevant activities of Ahsay Korea, and therefore, the directors of the Company are of the view that the Group had control over Ahsay Korea on 29 April 2019. As a result, the Group applied the acquisition method in accounting for the acquisition of the subsidiary.

Ahsay Korea was previously one of the Group's distributors of the backup software in South Korea and was acquired by the Group with the objective of expanding and developing the Group's core backup business in South Korea.

27. BUSINESS COMBINATION (continued)

The provisional and finalised fair values of the identifiable assets and liabilities of Ahsay Korea as at the date of acquisition were as follows:

	Notes	Provisional fair value recognised on acquisition HK\$'000	Finalised fair value recognised on acquisition HK\$'000
Property, plant and equipment	14	12	12
Right-of-use assets	15(a)	109	109
Other intangible assets		—	167
Rental deposits paid		38	38
Trade and other receivables		364	364
Cash and bank balances		684	684
Other payables and accruals		(232)	(232)
Lease liabilities	15(b)	(103)	(103)
Contract liabilities		(217)	(217)
Other borrowings		(948)	(948)
Total identifiable net liabilities at fair value		(293)	(126)
Non-controlling interests		209	90
Goodwill on acquisition		754	706
Satisfied by cash		670	670

The provisional fair values recognised on acquisition as shown above were adjusted upon the completion of the initial accounting for the business combination during the measurement period, which has not exceeded one year from the acquisition date.

During the current year, management has finalised the fair value assessment of the identifiable assets and liabilities of Ahsay Korea at the date of acquisition. The amount of goodwill was initially recognised on a provisional basis in the consolidated financial statements for the year ended 31 December 2019 at approximately HK\$754,000 at the date of acquisition. As a result, adjustments have been made to reduce the goodwill and the non-controlling interests arising from the acquisition by HK\$48,000 and HK\$119,000, respectively, and increase the initial carrying amount of other intangible assets by HK\$167,000. Except for the respective fair values of other intangible assets which were determined based on the multi-period excess earnings method, the carrying amounts of other identifiable assets and liabilities approximated to their fair values. Accordingly, the amount of other intangible assets has been adjusted to HK\$167,000 as at the date of acquisition. The Group considered the amortisation of other intangible assets has had no material impact on the Group and no adjustments were made to the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2019.

As the acquisition took place during the year ended 31 December 2019 and no adjustments were made to the balances as stated at 1 January 2019, the consolidated statement of financial position as at 1 January 2019 is therefore not presented.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

27. BUSINESS COMBINATION (continued)

The directors of the Company consider the acquisition of Ahsay Korea as an effort to expand the distribution network of the Group's core online backup business in South Korea and the goodwill on acquisition pertains to, but is not limited to, the expected incremental values and potential synergies for the expansion plans of the Group.

The fair values of the trade and other receivables of Ahsay Korea as at the date of acquisition approximate to their gross contractual amounts and the directors of the Company do not expect any significant acquired receivables to be uncollectible.

The Group measured the acquired lease liabilities using the present value of the remaining lease payments at the date of acquisition. The right-of-use assets were measured at an amount equal to the lease liabilities and adjusted to reflect the favourable terms of the leases relative to market terms.

The Group incurred transaction costs of HK\$62,000 for this acquisition. These transaction costs had been expensed and were included in other expenses in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2019.

The non-controlling interest (71.43%) in Ahsay Korea recognised at the acquisition date was measured by reference to the proportionate share of the identifiable net liabilities of Ahsay Korea and amounted to HK\$90,000.

An analysis of the cash flows in respect of the acquisition of a subsidiary is as follows:

	HK\$'000
Cash consideration	(670)
Cash and bank balances acquired	684
	14

Since the acquisition, Ahsay Korea contributed HK\$1,401,000 to the Group's revenue and HK\$915,000 to the consolidated loss for the year ended 31 December 2019.

Had the combination taken place at the beginning of the year ended 31 December 2019, the revenue of the Group and the loss of the Group for the year ended 31 December 2019 would have been HK\$59,125,000 and HK\$1,212,000, respectively. The pro-forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed at the beginning of 2019, nor is it intended to be a projection of future results.

In determining the 'pro-forma' revenue and performance of the Group had Ahsay Korea been acquired at the beginning of 2019, the directors of the Company calculated depreciation of property, plant and equipment based on the recognised amounts of property, plant and equipment at the date of the acquisition.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

28. RETIREMENT BENEFIT SCHEME

The Group operates a Mandatory Provident Fund Scheme (“MPF Scheme”) for all qualifying employees in Hong Kong. Contributions from employers and employees are 5% each of the employee’s relevant income. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of an independent trustee. During the current year, the retirement benefit scheme contributions arising from the MPF Scheme charged to profit or loss, after capitalisation of development costs, were HK\$1,186,000 (2019: HK\$1,016,000).

29. COMMITMENTS

The Group had the following capital commitments at the end of the reporting period:

	2020 HK\$’000	2019 HK\$’000
Contracted, but not provided for, building	—	6,271

30. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group’s overall strategy remains unchanged from the prior year.

The capital structure of the Group consists of issued share capital, share premium and reserves.

The directors of the Company review the capital structure from time to time. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through the payment of dividends, the issue of new shares, new debts or the redemption of existing debts.

The Group monitors capital using a gearing ratio which is measured on the basis of the total interest-bearing other borrowings to the total equity. As at 31 December 2020, the Group’s gearing ratio was approximately 2.5% (2019: 1.7%).

31. FINANCIAL INSTRUMENTS

a. Categories of financial instruments

The carrying amounts of each of the categories of financial instruments as at the end of the reporting period are as follows:

Lease liabilities	3,041	5,874
Other borrowings	1,811	1,340
	6,356	9,100

b. Fair value of financial instruments

At the end of the reporting period, the carrying amounts of the Group's financial assets and liabilities reasonably approximated to their fair values.

Management has assessed that the fair values of financial assets included in trade and other receivables/ deposits paid, financial asset at amortised cost, bank balances and cash, financial liabilities included in other payables and accruals, lease liabilities and other borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments or the effect of discounting is not material.

c. Financial risk management objectives and policies

The Group's financial instruments include trade and other receivables, deposits paid, financial asset at amortised cost, bank balances and cash, other payables and accruals, lease liabilities and other borrowings. Details of the financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risk (interest rate risk and currency risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The directors of the Company manage and monitor these exposures to ensure that appropriate measures are implemented in a timely and effective manner.

Market risks

The Group's activities expose it primarily to the financial risks of changes in interest rates and foreign currency exchange rates. Details of each type of market risks are described as follows:

(i) *Interest rate risk management*

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's other borrowings with floating interest rates.

No sensitivity analysis was prepared for bank balances as the financial impact arising from changes in interest rates was minimal due to limited changes in interest rate.

c. Financial risk management objectives and policies (continued)

Market risks (continued)

(i) Interest rate risk management (continued)

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's (loss)/profit before tax (through the impact of other borrowings with floating interest rates).

	Increase/ (decrease) in basis points	Increase/ (decrease) in loss before tax HK\$'000

	Increase/ (decrease) in basis points	Increase/ (decrease) in profit before tax HK\$'000
2019		
KRW	(50)	7
KRW	50	(7)

There is no impact on the Group's equity except on the accumulated losses.

(ii) Currency risk

The Group has transactional currency exposures. Such exposures mainly arise from revenue generated and/or costs and expenses incurred by operating units in currencies other than the Group's operating units' functional currencies. The Group does not use any derivative contracts to hedge against its exposure to currency risk. The directors of the Company manage currency risk by closely monitoring the movement of the foreign currency exchange rates and considering hedging significant foreign currency exposure should such need arise.

The carrying amounts of the Group's monetary assets denominated in currencies other than the Group's operating units' functional currencies at the end of the reporting period are mainly denominated in US\$. As HK\$ is pegged to the US\$ within a narrow band, the Group does not expect any significant movements in the US\$/HK\$ exchange rate. Accordingly, management considers that the Group's foreign currency risk exposure to US\$ is not significant.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

31. FINANCIAL INSTRUMENTS (continued)

c. Financial risk management objectives and policies (continued)

Credit risk and impairment assessment

As at 31 December 2020, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arose from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position and statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for the determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each financial asset at the end of the reporting period to ensure that adequate impairment losses are recognised for irrecoverable amounts. Furthermore, the Group performs impairment assessment under the ECL model upon application of HKFRS 9 on trade balances based on a provision matrix.

The credit risk on bank balances is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

To manage the risk arising from other receivables and rental deposits paid, the Group only transacts with reputable parties that have no default history and have a strong capacity to meet its contractual cash flow obligations in the near term. The credit risk on other receivables and rental deposits paid are limited because the counterparties are individuals with high internal credit ratings assessed by management. Management has assessed that the expected credit losses for other receivables and rental deposits paid are not significant.

As at 31 December 2020 and 2019, trade receivables consisted of a large number of customers, spread across diverse industries and geographical areas. There was no single customer contributing over 10% of the total trade receivables of the Group. The Group does not have any other significant concentration of credit risk. The directors of the Company closely monitor the subsequent settlements of the customers. In this regard, the directors of the Company consider that the Group's credit concentration risk is significantly mitigated.

As part of the Group's credit risk management, the Group uses debtors' ageing to assess the impairment for its customers in relation to its online backup software and related services segment because there is a large number of customers with common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. During the years ended 31 December 2020 and 2019, the expected loss rate for customers in relation to the Group's online backup software and related services segment was minimal, given there was no history of significant defaults from customers and the impact from forward-looking estimate was insignificant. As at 31 December 2020 and 31 December 2019, the trade receivables are current and not past due. The assessed expected credit losses for the trade receivables are not significant. The grouping is regularly reviewed by management to ensure that relevant information about specific debtors is updated.

During the year ended 31 December 2020, no impairment allowance for trade receivables is provided based on the provision matrix (2019: Nil).

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following tables detail the Group's remaining contractual maturity for its financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

33. SHARE OPTION SCHEME

Pursuant to the Company's share option scheme (the "Scheme") adopted on 4 September 2015 for the primary purpose of providing incentives or rewards to eligible persons for their contribution or potential contribution to the Group. Eligible persons include, but are not limited to, the Group's shareholders, directors, employees, business partners, customers and suppliers.

The Board may grant options to subscribe for shares in the Company at a price determined by its Board, but the price shall not be less than the highest of (i) the closing price per share as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a trading day; (ii) the average closing price per share as stated in the Stock Exchange's daily quotation sheet for the five trading days immediately preceding the date of grant; and (iii) the nominal value of a share on such date of grant.

Without prior approval from the Company's shareholders, the total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of the shares of the Company in issue at any point in time, and the number of shares in respect of which options may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue at any point in time.

The Scheme will remain in force for a period of ten years from the date of its adoption. Options granted may be accepted within 21 business days from the date of grant. A consideration of HK\$1 is payable on the acceptance of the offer of grant of an option. An option is exercisable on the date when the offer for the grant of options is made but shall end in any event not later than 10 years from the date of grant of the options.

No options have been granted during both years under the Scheme. There were no options outstanding under the Scheme as at 31 December 2020 and 2019.
